

Containers

Endless possibilities

GASTRO

WHY CHOOSE US?

Sea containers have been used in gastronomy for many years.

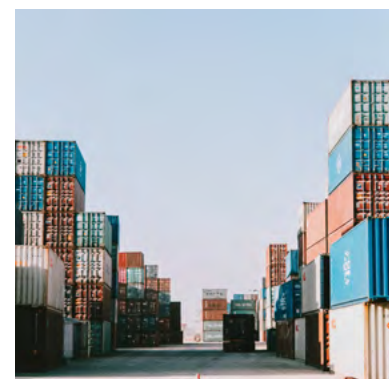

Their aesthetics attracts attention and provide many opportunities in terms of expansion, be it with new modules or forms of space management around them.

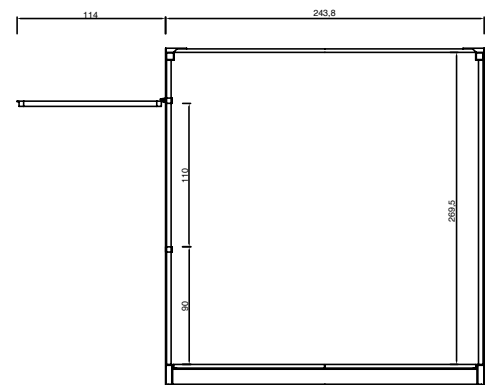

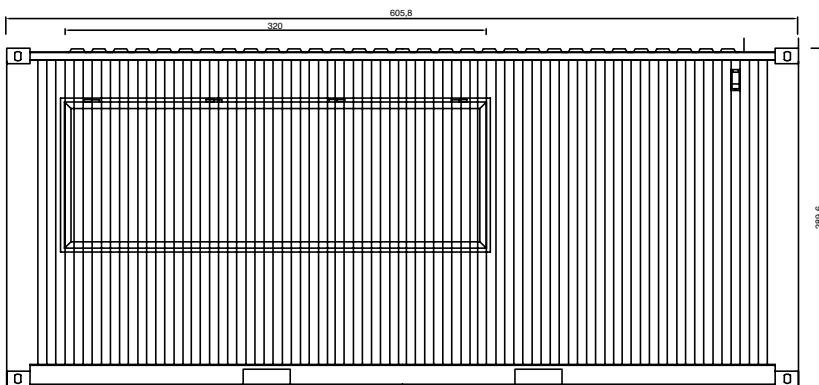

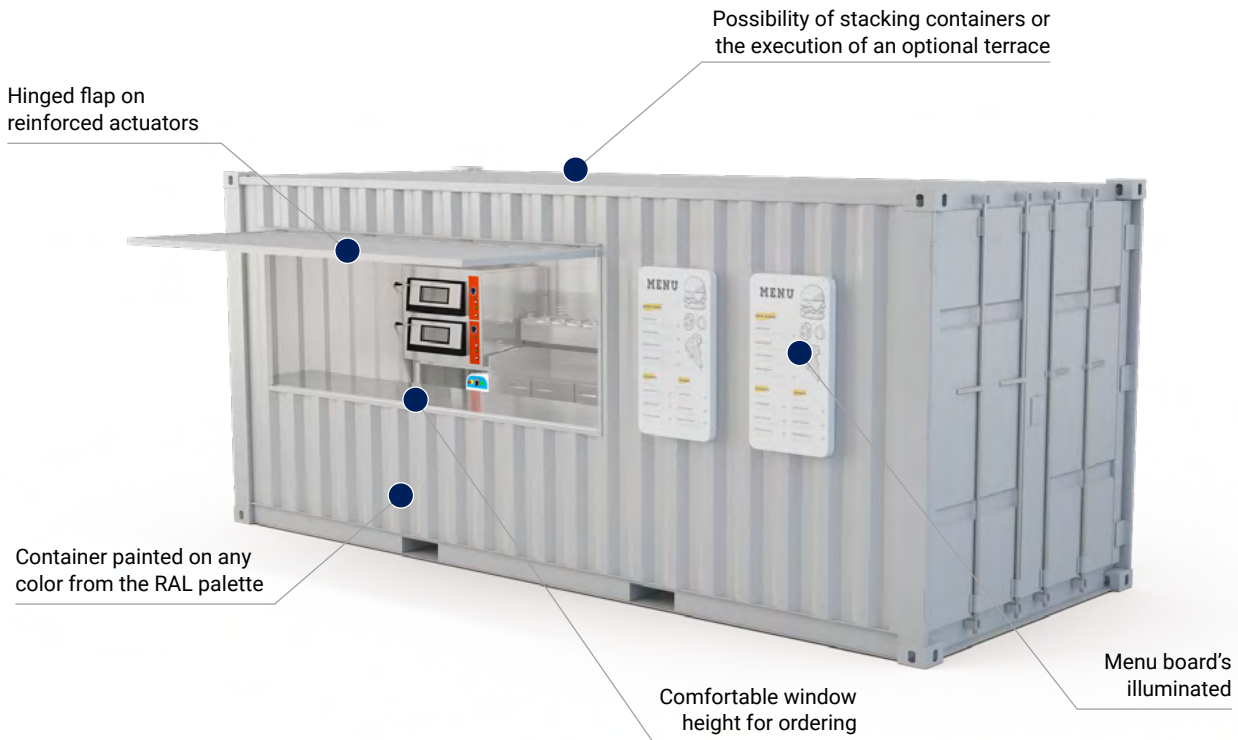

We present you 4 ready-made gastronomic concepts built on the basis of 6-meter sea containers.

They are ready, well thought out and optimized (in terms of work inside and the cost of purchase) tools for the implementation of large sales and bringing measurable profits.

The standard offer can be adapted to the investor's needs. Containers can be extended with other elements and accessories and adjusted to the needs in terms of aesthetics.

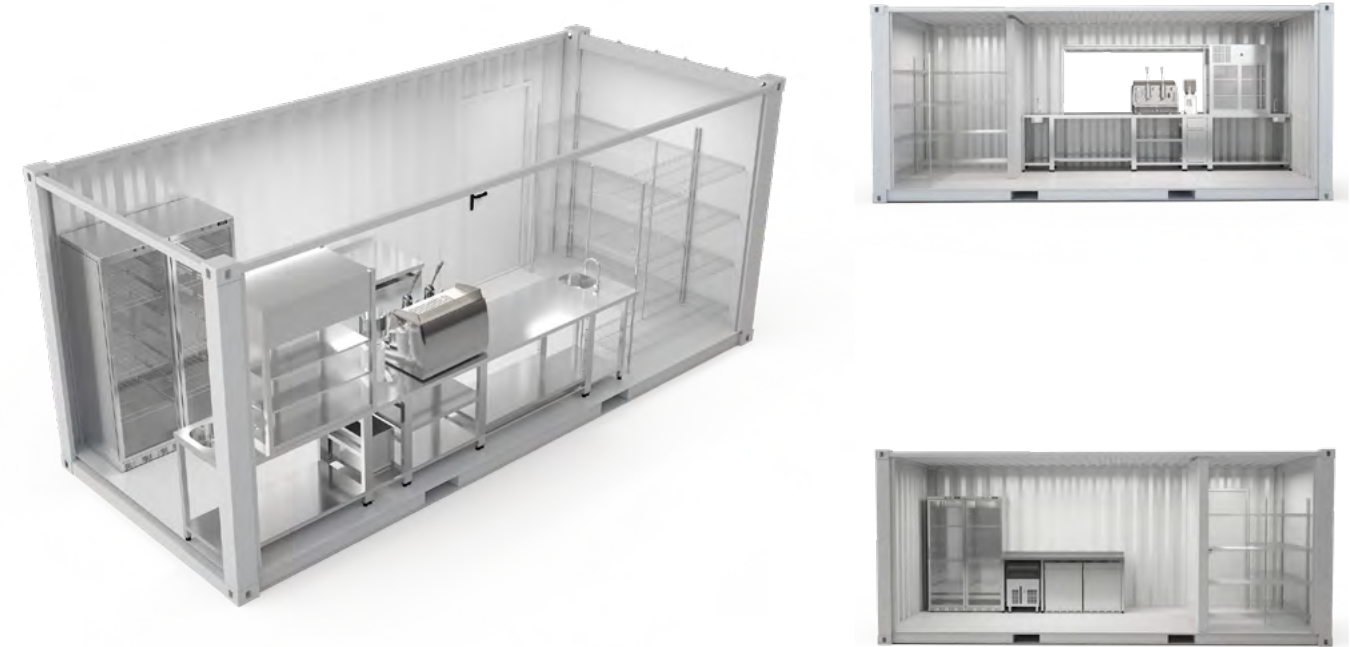

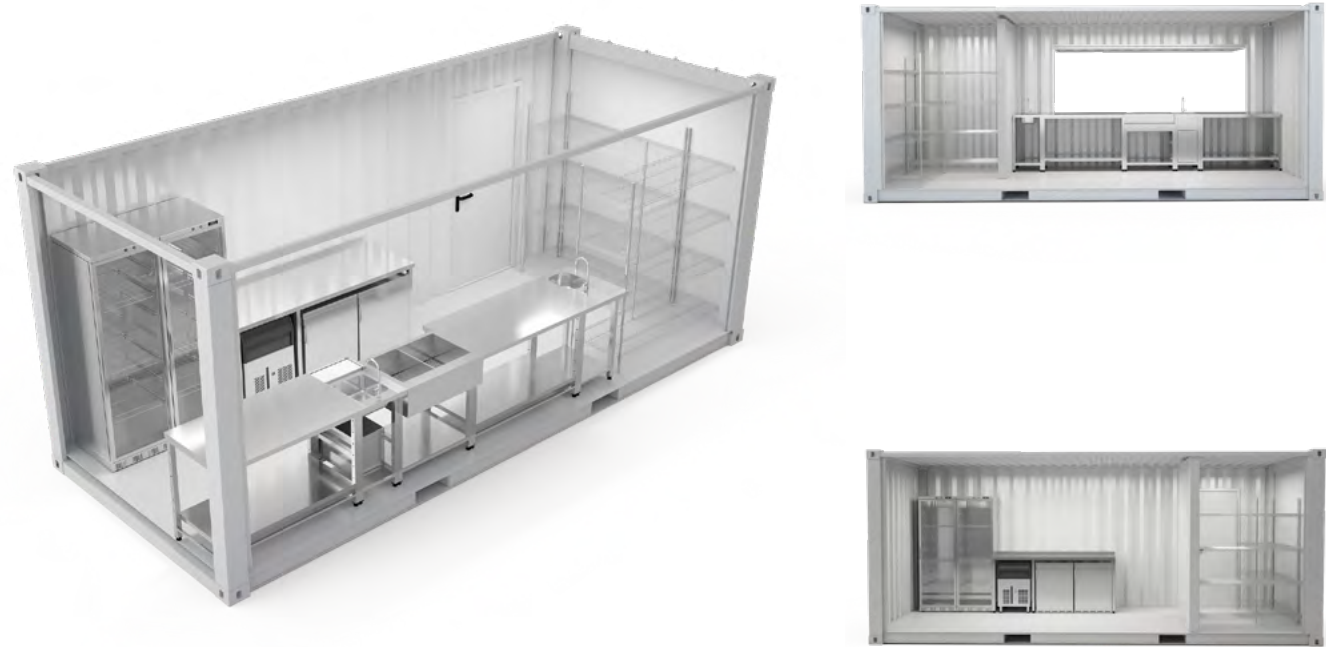

We invite you to cooperation.

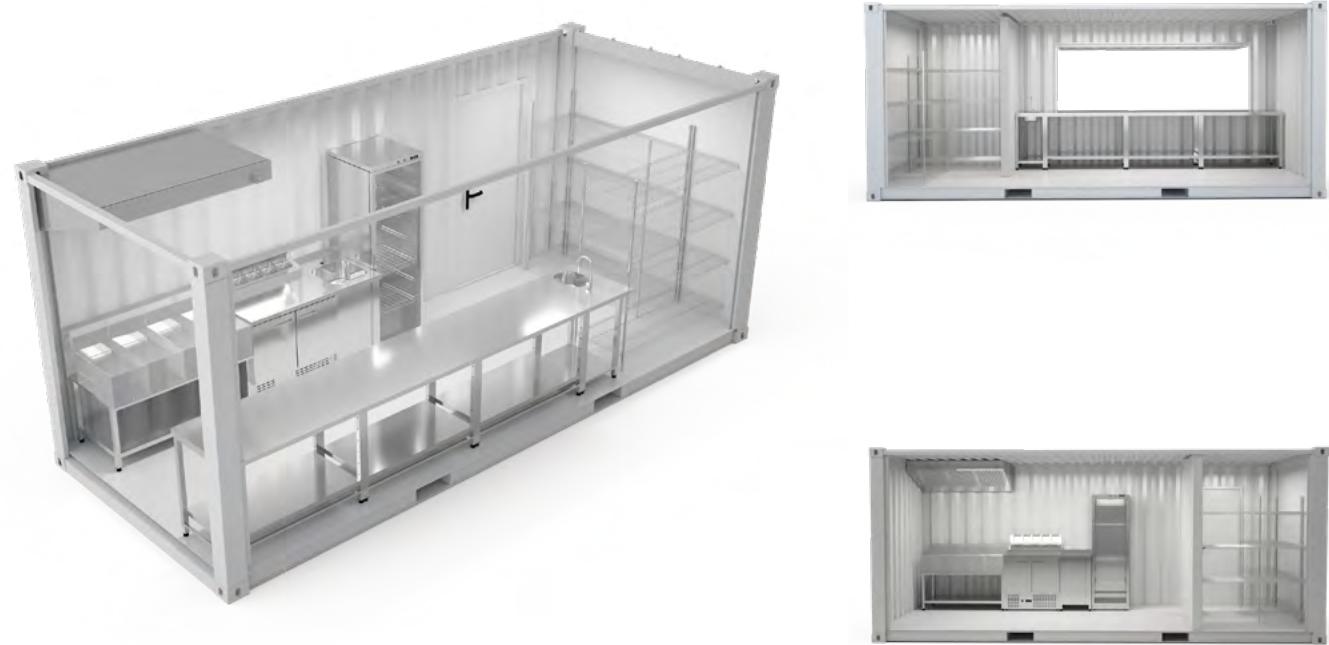

Technical data

External dimension	6058x2438x2591 h
Internal dimension	5758x2352x2385 h
The height of the flap from the ground inside	900
Flap dimensions	3200x1000
Weight without accessories	2 000 kg
Maximum payload	28 480 kg

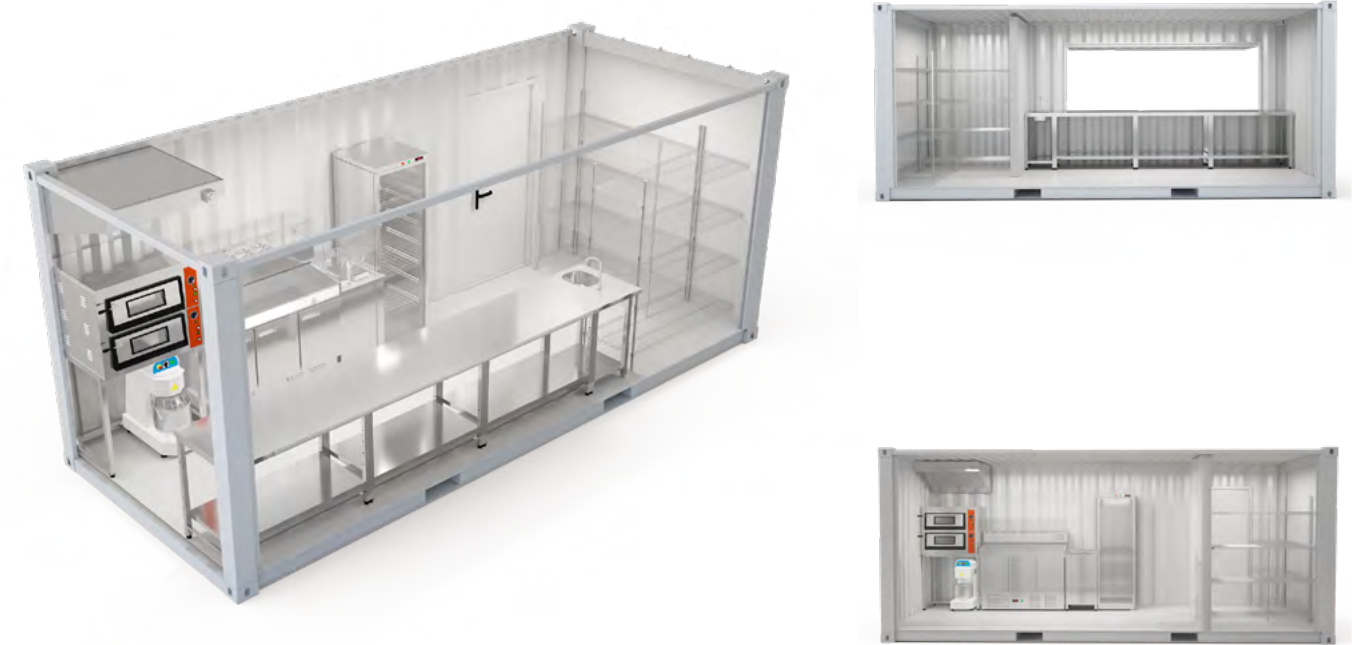

Name	Producer	Dimensions (mm)	Power (kW)	Voltage (V)	Quantity	Net price (EUR)	Net sum (EUR)
