

Rental

Endless possibilities

GASTRO

WHY CHOOSE US?

Would you like to enter the catering business, but don't want to invest too much at the beginning?

Do you have an ideal sales stand that is sure to make money, but you don't have time to wait?

Do you already run a catering business and occasionally need a tool to sell at an event?

Or maybe simply a fixed cost during the season is better than running the business all year round?

To meet the needs of the market we offer the possibility of short-term and long-term rental of mobile sales stands.

Choose the perfect solution for you and start earning without investing your own money!

Description

The standard bike is the most popular configuration with additional accessories and is the starting point for most concepts.

Equipped with a capacious box instead of a carrier, a decorative board and a front folding worktop, it can be easily adapted for selling the majority of products.

The bike is equipped with water and electricity installations as standard, so to adapt it to your own needs you only have to add devices as required.

Dimensions

- 1 Box (mm): 1300x800x550 h
- 2 Bike (mm): 2600x1100x2200 h
- 3 Dimensions of the bike with the box and the front worktop (mm): 3250x1100x2200 h
- 4 Height (with a folded roof) (mm): 1700 mm

Description

A coffee bike has been part of the urban landscape for a long time. Its classic look and unusual form of sales attract hundreds of coffee enthusiasts. A basic coffee bike is made of waterproof, veneered plywood, includes a 2-group gas-electric coffee machine, a coffee grinder, a water pump, and the electrical installation.

Side shelves and cup dispensers facilitate everyday work, and a back carrier gives an additional storage space. We designed water containers as well as the electrical installation in the front part of a bike so you can access them easily. You can refill the water containers and check the battery level anytime. Charging is extremely easy – all you need to do is to connect the installation to a plug using a typical 230 V cable.

While ordering you can personalize your bike by choosing a type and a colour of the box, as well as a colour of the frame, mudguards, and the roof.

Dimensions

- 1 Box (mm): 1300x800x550 h
- 2 Bike (mm): 2600x1100x2200 h
- 3 Dimensions of the bike with the box and the front worktop (mm): 3250x1100x2200 h
- 4 Height (with a folded roof) (mm): 1700 mm
